The MAILING DATE of this communication app Period for Reply	ears on the cover sheet with the c	orrespondence ad	ldress			
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-5 and 7-9, drawn to nucleic acid construct comprising SEQ ID NO:1, host cells comprising construct and method of making host cells.

Group II, claim 6, drawn to immunogenic protein of SEQ ID NO:6.

Group III, claim(s) 1-5 and 7-9, drawn to nucleic acid construct comprising SEQ ID NO:2, host cells comprising construct and method of making host cells.

Group IV, claim 6, drawn to immunogenic protein of SEQ ID NO:7.

Group V, claim(s) 1-5 and 7-9, drawn to nucleic acid construct comprising SEQ ID NO:3, host cells comprising construct and method of making host cells.

Group VI, claim 6, drawn to immunogenic protein of SEQ ID NO:8.

Group VII, claim(s) 1-5 and 7-9, drawn to nucleic acid construct comprising SEQ ID NO:4, host cells comprising construct and method of making host cells.

Group VIII, claim 6, drawn to immunogenic protein of SEQ ID NO:9.

Art Unit: 1645

Group IX, claim(s) 1-5 and 7-9, drawn to nucleic acid construct comprising SEQ ID NO:5, host cells comprising construct and method of making host cells.

Group X, claim 6, drawn to immunogenic protein of SEQ ID NO:10.

Group XI, claim(s) 1-5 and 7-9, drawn to nucleic acid construct comprising SEQ ID NO:11, host cells comprising construct and method of making host cells.

Group XII, claim 6, drawn to immunogenic protein of SEQ ID NO:12.

The inventions listed as Groups I-XII do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the technical feature linking the groups is immunogenic proteins and nucleic acids from Leishmania amastigote or promastigote forms of Leishmania. Immunogenic proteins and corresponding nucleic acid and nucleic acid constructs of promastigote or amastigote Leishmania antigens are known to the art as evidenced by Alvarez et al (US20030157125 published August 21, 2003) or Reed et al (US20020169285, published 11-2002) both of which teach nucleic acid constructs comprising Leishmania immunogenic proteins from the promastigote or amastigote forms. As such, the individual nucleic acids and proteins are not so linked by a "special" technical feature that defines over the art. The individual nucleic acids and proteins claimed do not therefore form a group of members that define over the prior art and are not individually linked by a structural and functional feature that defines over the art.

Applicant is advised that the reply to this requirement to be complete must include

(i) an election of a species or invention to be examined even though the requirement may

Application/Control Number: 10/579,749

Art Unit: 1645

be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Patricia A. Duffy whose telephone number is 571-272-0855. The examiner can normally be reached on M-Th 7:30 pm - 6:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Shanon Foley can be reached on 571-272-0898. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
